## Vale Tudo – knallharter Metal-Core HCZH

VALE TUDO is a brand new Swiss hardcore combo that specialises in raw power in-your-face music, high-energy live performances and the grilling of tons of red meat.

VALE TUDO was founded in March 2006 by five Zurich scene veterans with the shared affection for bone crushing mosh riffs and excessive barbecue sessions. Within less than a dozen boozed up rehearsals the first songs were composed and recorded DIY-style for their debut CD "Anything Goes". Despite the extremely short production time the result was more than convincing: Eight hate driven tracks of pure aggro and staggering brutality, provided with a massive yet honest sound.

Even before the record was sent to the pressing plant the first available rough mixes caused enthusiastic reactions amongst hardcore aficionados all over the country. Word of mouth took over and soon the first gig offers were reality.

### **Line-Up:**

DK Violent (vocals)
